

REMARKS

In the Office Action, the Examiner objected to claim 82 and claim 81 and rejected claim 49 as anticipated by Plesski.

Claim Objections

Applicants express their appreciation to the Examiner for allowance of the claims and for noting the language intended for claim 85. The language of claim 85 has been amended as suggested by the Examiner so that claim 85 is in form for allowance.

Claim 81 has been amended to refer to the electrical connections that are claimed in claim 44 so that it overcomes the objection and also is in form for allowance.

35 U.S.C. §102

Claim 49 has been amended to incorporate the language of claim 48 from which it depended previously. Applicants submit that the Section 102 rejection is thereby overcome and that the claim is in form for allowance.

Conclusion

The application has been amended to address each issue raised in the action and is thereby in form for allowance.

Favorable consideration of the present application is hereby requested.
